

Manston needs you!

The development proposals by Stone Hill Park are not the future for Thanet and East Kent – We Want a Manston Airport for Aviation.

Ray Mallon and the spin doctors at Pillory Barn will tell you that their “mixed use” development of the [Manston Airport](#) site will create up to 12,000 jobs (and then backtrack to 4,000). Ask them why they haven't created 12,000 jobs at Discovery Park or Wynyard Park!

They will tell you they plan to build 2,500 homes with “space to build more”, including starter homes and houses for older people. Who will be able to afford these homes, in an area with the highest unemployment rate in Kent? Or perhaps it will be 10,000 “dwellings” as leaked in the Quinn Estates document ?

The “owners” have even registered a new company, in a plan to name the site 'Barnes Wallis Park', without the permission of the Barnes Wallis Foundation!

The future of [Manston Airport](#) is as an operating airport, with related businesses including aircraft engineering and freight transportation.

What can you do?

**Join the 9,000-strong army that will
SAVE MANSTON AIRPORT!**
