

Hi Guys, An <SMAa Info Kit>

This is for people newly joining the **Save Manston Airport association (SMAa)**, or who would like to find out more about the return of Manston Airport for Aviation, or for those of you that would like to add some of your friends.

SMAa is a group of people who are passionate about re-opening Manston Airport in Kent, for commercial Aviation, both passenger and freight - it needs the freight to pay for the passengers - and UK Limited is desperate for more freight capacity in the South East England.

RiverOak's Development Consent Order (DCO) to re-open Manston Airport has been accepted for Examination – i.e. PINS accept that Manston is a Nationally Significant Infrastructure Project, and that RiverOak have the necessary money to pay for it. You can now submit the outline bullet points of your comments to PINS. Please use this URL rather than email or paper letters : <http://bit.ly/PINSreg>

RiverOak wish to invest about £0.5 Billion in infrastructure in East Kent and Thanet - the knock-on effects will be huge, plus there will be local jobs, and education and training will be put in place so local people can participate. See : [Manston Airport and the Regeneration of Thanet.pdf](#)

OK, to learn more, there is a vast amount of information on our documentation site, join here : <http://www.savemanstonairport.org.uk/wordpress/new-user-register/>
